<https://mchrc.srmtrichy.edu.in/wp-content/uploads/2024/03/AQAR-2022-to-2023.pdf>

4.Was the Academic Calendar prepared for that year?

Yes

- if yes, whether it is uploaded in the Institutional website Web link:

5.Accreditation Details

Cycle	Grade	CGPA	Year of Accreditation	Validity from	Validity to
Cycle 2	A+	3.44	2023	01/05/2023	30/04/2028

6.Date of Establishment of IQAC

14/07/2017

7.Provide the list of funds by Central/ State Government-UGC/ICSSR/ IUCTE/CSIR/DST/DBT/CPE of UGC/PMMMNMNTT etc.

Institution/ Department/Faculty	Scheme	Funding agency	Year of award with duration	Amount
Dr.S.Revwathy(The Dean)	FIST	Department of Science and Technology	30/03/2022	90,00,000
Ms.P.Harini ;Community Medicine	ICMR STS	Indian Council of Medical Research	15/11/2023	50,000
Ms. N. Isaithendral ; Dermatology	ICMR STS	Indian Council of Medical Research	10/08/2023	50,000
Ms. G. Oviya ;Pediatrics	ICMR STS	Indian Council of Medical Research	12/09/2023	50,000
Ms. V. Shruthi ;General Surgery	ICMR STS	Indian Council of Medical Research	23/08/2023	50,000
Dr. Ramchandra Goyal ;Community Medicine	Grant in aid	Indian Council of Medical Research, New Delhi	22/07/2020	36,82,752

8.Whether composition of IQAC as per latest NAAC guidelines **Yes**

- Upload latest notification of formation of IQAC [View File](#)

9.No. of IQAC meetings held during the year **4**

- Were the minutes of IQAC meeting(s) and compliance to the decisions have been uploaded on the institutional website? **Yes**

- (Please upload, minutes of meetings and action taken report)
- No File Uploaded

10. Whether IQAC received funding from any of the funding agency to support its activities during the year? **No**

- If yes, mention the amount

11. Significant contributions made by IQAC during the current year (maximum five bullets)

- Appropriate documentation and submission of records for NIRF and NAAC AQAR.
- Coordinate with various departments in conducting faculty development programs, workshops and continuing medical education programs.
- Training of faculty towards accreditations processes.
- Annual Academic and administrative audit as a process of monitoring the sustenance of the activities at department and institutional level.
- Coordinate the activities conducted by Women empowerment cell towards gender equity.

12. Plan of action chalked out by the IQAC in the beginning of the Academic year towards Quality Enhancement and the outcome achieved by the end of the Academic year (web link may be provided).

Plan of Action	Achievements/Outcomes
To conduct program towards quality enhancement	Internal Quality Assurance Cell has conducted quality enhancement programs to facilitate the progress in teaching-learning, research, accreditation process, medical education.
Submission of documents to India Today ranking	Ranked as 40th best medical college in India
Enhance the involvement of students in extension and outreach activities	IQAC along with YRC has facilitated the participation of students in outreach programs and camps which has resulted in involvement of more than 90% of students in such activities.
Preparation and submission of documents of AQAR 2022-2023	Successful submission of AQAR 2022-2023.
Preparation of Annual report of the institution	Annual report prepared and submitted to review the activities conducted and the institutional achievements during the year 2023-2024.
Collection of feedback from stakeholders	Feedback from stakeholders were collected through IQAC regarding curriculum, teaching-learning and general campus facilities which were analyzed and actions were taken to rectify the reported issues.

13. Whether the AQAR was placed before statutory body?

Yes

- Name of the statutory body

Collection of feedback from stakeholders	Feedback from stakeholders were collected through IQAC regarding curriculum, teaching-learning and general campus facilities which were analyzed and actions were taken to rectify the reported issues.
13. Whether the AQAR was placed before statutory body?	Yes
Name of the statutory body	
Name	Date of meeting(s)
College Council	10/10/2024

14.Does the Institution have Management Information System?	Yes
• If yes, give a brief description and a list of modules currently operational	
The Hospital Management Information system is useful for maintaining the medical records of the patient, their contact details, keep track of the review dates, save the insurance information for later reference, tracking the bill payments etc. Modules of the HMIS includes the following: Registration Outpatient (OP) Inpatient (IP) Admission Medical Records Department (MRD) Emergency / Casualty Laboratory OP Billing Blood Bank Radiology Stores IP Billing Wards	
15.Multidisciplinary / interdisciplinary	
Trichy SRM Medical College Hospital and Research Centre follows curriculum specified by National Medical Commission (NMC) and The Tamil Nadu Dr MGR Medical University (TNMGRMU) for both undergraduate and postgraduate courses. The curriculum and syllabus incorporate multidisciplinary approach during different phases of UG and PG courses. Foundation course for UG students under Competency Based Medical Education curriculum include language and communication skills that are being taught to the students immediately when they enter into medical college. It also includes computer skills training which is done by involving faculty from other disciplines. Students are also exposed to Yoga as a part of their curriculum and also in the form of add-on course. Students are also taught about importance of herbal remedies using herbal garden located in the institution. These exposures help Indian medical graduate to follow holistic approach in treating the patients. Research is another platform where interdisciplinary approach is practiced. During internship, students work as a team along with nurses, social workers and other technical staffs which improves team work among the students. Sociology and Humanities are also taught to the students which help them to follow a holistic approach in managing patients in future keeping in mind the cultural practices, custom and behaviour of the community.	
16.Academic bank of credits (ABC):	
Credit based system is not applicable for the undergraduate students in medical colleges as per the regulatory body (National Medical Council) and the affiliating University (The Tamil Nadu Dr MGR Medical University). Postgraduate students have to	

mandatorily fulfil the credit points specified by TNMGRMU (50 credit points) to be eligible to appear for summative university examination.

17.Skill development:

CBME curriculum of National Medical Commission (NMC) has provided the details of skills to be acquired by each Indian Medical Graduate (IMG). The details of the competencies are provided in the form of 3 curriculum volumes (Pre and Para-clinical departments, Medicine and Allied & Surgery and Allied subjects). Curriculum sub-committee members of each department, along with curriculum committee members identify and list the skills specified for each course following which lesson plans are prepared and skills are taught to the students in bedside, OPD, Skills lab of the institution and department. Similarly, the skills specified under PG curriculum are also identified by each department concerned and are taught to the postgraduates. AETCOM module is used for teaching attitude, ethics and communication skills. Along with subject specific skills specified by NMC, programmes for development of analytical skills, language, soft skill, personality & professional development and employability skills are also conducted for the students.

18.Appropriate integration of Indian Knowledge system (teaching in Indian Language, culture, using online course)

The students are sensitized about cultural diversity during the foundation course of first year MBBS. The students are also made aware of cultural diversity of Tamil Nadu. The institution conducts cultural fest every year with events of Tamil mandram which serves as a platform for students to write poetries, compose songs and write essays in the regional language-Tamil. The program includes traditional art and folk dances of South India followed by other events. The institution celebrates festivals such as Pongal, Navaratri, Karthigai deepam, Christmas, Margazhi music festival, Onam, Ugadi and Ganesh Chaturthi which serves as a platform to understand cultural diversity. The cultural practices, customs and beliefs, religious practices are given due importance while treating the patients. These values are taught to the students throughout their course. Attitude, Ethics and Communication (AETCOM) module is one most important component of medical education curriculum which is taught to the students of all professional years which focuses on respecting patients' autonomy, cultural beliefs etc.

19.Focus on Outcome based education (OBE):Focus on Outcome based education (OBE):

National Medical Commission prescribes competency based medical education (CBME) for both undergraduate students and postgraduates. The graduate attributes are specified by NMC and the institution strives to achieve the same. Programme outcomes are identified and listed. Course outcomes are identified based on the competencies/subject specific outcomes specified in the curriculum. Specific learning objectives are prepared for each competency by the departments concerned and lesson plans are prepared. Achievement of competencies are analysed during the formative assessment, internal assessment and summative assessment. Logbook are maintained by the students which reflects their attainment of competencies.

20.Distance education/online education:

Faculty development programs are conducted by the institution to train the faculty and postgraduates of TSRMMCH&RC in developing E contents. The contents developed by the faculty are available in the institution's website and also in the institution's Learning Management System -E curricula. TSRMMCH&RC also uses other platforms such as Google classroom, Microsoft teams, Google meet, Zoom, YouTube channels for online teaching. Faculty also motivate students to attend online courses, webinars and workshops which again serve as different modality of online education. Students are sensitized about various open education resources which also serve as a platform to make them a lifelong learner.

Part B

CURRICULAR ASPECTS

1.1 - Curricular Planning and Implementation

1.1.1 - The Institution ensures effective curriculum planning, delivery and evaluation through a well defined process as prescribed by the respective regulatory councils and the affiliating University.

Trichy SRM Medical College Hospital and Research Centre (TSRMMCH&RC) being a private institution affiliated to The Tamil Nadu Dr.MGR Medical University (TNMGRMU) and recognized by

National Medical Commission (NMC). The institution follows the curriculum laid down by NMC and the guidelines given by affiliated University. Changes in curriculum by NMC and TNMGRMU are circulated to faculty, students and other stakeholders. Classes are conducted as per teaching schedule with minimum hours for each subject as prescribed by NMC and University. In addition to traditional teaching-learning method, simulation-based learning, case-based learning, bedside teaching, integrated teaching, community teaching is also used. Postgraduates are posted to specialized centres like clinical and diagnostic virology training, Institute of Vector Control and Zoonoses and various health facilities as per the district residency program etc. Evaluation done by regular formative and continuous Internal assessments includes theory, practical/clinical tests, viva and OSCE/OSPE. Faculty are trained in Curriculum Implementation Support Program (CISP) and Revised Basic Course Workshop in Medical Education Training. Curriculum committee and curriculum sub-committee members of each department prepares Specific Learning Objectives (SLO) for subject specific competencies under NMC curriculum followed by implementation of teaching-learning programs. In addition to the curriculum committee meeting, curriculum related issues are discussed during monthly HODs meeting.

1.3 - Curriculum Enrichment

1.3.1 - The Institution integrates cross-cutting issues relevant to gender, environment and sustainability, human values, health determinants, Right to Health and emerging demographic issues and Professional Ethics into the Curriculum as prescribed by the University / respective regulative councils

Cross-cutting issues relevant to environment and sustainability, human values, health determinants, Right to Health and emerging demographic issues and Professional Ethics are integrated into curriculum as prescribed by NMC and the affiliating University. Gender equity programs, guest lectures are conducted for awareness on gender equality. YRC is involved in Planting of saplings, cleaning the surroundings under Swachh Bharat mission etc. Management encourages eco-friendly green campus through planting fresh saplings, preserving trees, effluent treatment and recycling system, ban on tobacco and plastics. Bio-medical waste management training, additional initiative in environment sustainability is conducted by Hospital Infection Control Committee for students. Professional ethics and Human values- Students are taught about ethical issues in medical practice and research. Health determinants, Right to Health and emerging demographic issues- In community medicine sessions, students are trained in Concept of Health and Disease and demographic issues like sex ratio, female foeticide, challenges in achieving fertility indicators target etc. Interns are trained to educate people on issues related to right to health. Sessions on duties and responsibilities, introduction to research, establishing rapport between patient and doctor, Bio-ethics and Human relationship, Communication in Medicine etc are conducted.

2.2.3 - Institution facilitates building and sustenance of innate talent /aptitude of individual students (extramural activities/beyond the classroom activities such as student clubs, cultural societies, etc)

Institution facilitates building and sustenance of innate/ aptitude of individual students (extramural activities/ beyond the classroom activities such as students clubs, cultural societies etc)

The institution nurtures student talent and leadership by supporting the formation of various clubs and committees. These include:

Students' Council: An independent student body comprising members from all phases of undergraduate and postgraduate medical education, guided by faculty. It proposes extracurricular activities and oversees the performance of other clubs and committees.

Music Club: Showcases musical talents under the guidance of senior students and faculty. It organizes recitals and competitions during events like Lekari Fiesta and performs during religious celebrations like Golu.

Dance Club – Doctors Dance Studio: Celebrates diverse dance styles and performs at institutional events, including Novato Fianza and Lekari Fiesta.

Sports Club: Promotes participation in intra- and intercollegiate sports meets and campus programs organized by sister institutions.

Youth Red Cross: Engages students in community service, promoting hygiene and public awareness programs.

Fine Arts & Tamil Mandram: Preserves cultural values and the

mother tongue through celebrations at Lekari Fiesta.

Bioethics Committee: Aligns with the UNESCO Chair of Bioethics, hosting AETCOM sessions and World Bioethics Day celebrations.

Magazine Committee: Serves as a platform for student writing and creativity.

Photography and Short Film Club: Encourages artistic expression, displayed on the college YouTube channel and walls.

2.3 - Teaching- Learning Process

2.3.1 - Student-centric methods are used for enhancing learning experiences by: Experiential learning Integrated/inter disciplinary learning Participatory learning Problem solving methodologies Self-directed learning Patient-Centric and Evidence-Based Learning Learning in the Humanities Project-based learning Role play

Student centric methods are used for enhancing learning experiences by:

The educational approach emphasizes diverse and innovative teaching methodologies to ensure comprehensive learning:

Experiential Learning involves clinical rounds where learners adopt the role of a doctor, participate in simulated scenarios at skill labs, and engage in community-based activities to apply their knowledge in real-world settings.

Integrated and Interdisciplinary Learning incorporates horizontal and vertical integration, enabling students to understand connections across disciplines and levels, ensuring cohesive teaching and evaluation.

Participatory Learning includes workshops, seminars, and team-

based learning sessions, especially for postgraduates. It also promotes collaboration through interdisciplinary activities with nursing and allied health sciences.

Problem-Solving Methodologies focus on problem-based learning and assessments, helping students enhance their critical thinking and decision-making skills.

Self-Directed Learning (SDL) is structured with hours specified by the NMC, during which students independently explore topics, complete assignments, and reflect on their learning outcomes.

Patient-Centric and Evidence-Based Learning involves UG and PG students presenting cases in wards and OPDs. PG students also participate in journal clubs to enhance evidence-based decision-making.

Learning in Humanities includes understanding the history of medicine through foundation courses, role-playing, and short films to address ethical dilemmas.

Project-Based Learning fosters teamwork and creativity as students work on developing study models and research projects, preparing them for future challenges.

2.3.3 - Teachers use ICT-enabled tools for effective teaching and learning process including online e-resources

Teachers use ICT enabled tools for effective teaching and learning process including online e -resources

Information and communication technology (ICT) bridges teachers and students globally. TSRMMCH offers a robust tech-savvy environment for effective ICT implementation. The institution features a 1 GBPS primary and 250 MBPS secondary internet line, with all teaching and learning areas interconnected via LAN and Wi-Fi. The four lecture halls are equipped with smartboards, with content streamed to TVs at the back of the halls.

The IQAC and MEU conduct regular faculty development programs and workshops. Department heads, IQAC, and MEU members have access to G Suite for Education, while the college maintains two Zoom accounts, one supporting up to 1,000 participants and another for 100.

eCurricula, the college's custom Learning Management System (LMS), is developed by SRMIST's Directorate of Learning and Development. It supports competency-based curricula, tracks learning outcomes, and integrates video conferencing. Teachers can utilize various learning methods like Flipped Classroom, Problem-Based Learning, and Blended Learning. The LMS tracks progression using Bloom's Taxonomy, captures attendance, and maintains logbooks. It supports assessments, auto-generates question papers, and facilitates tutorials, remedial, and self-study sessions. Additionally, it identifies academically challenged learners and implements corrective actions, ensuring a comprehensive learning experience tailored to professional education needs.

2.3.5 - The teaching learning process of the institution nurtures creativity, analytical skills and innovation among students

The teaching learning process of the institution nurtures creativity, analytical skills and innovation among students

TSRMMCH aspires to kindle the inert talents deep seated in the UG and PG students to nurture creativity, analytical skills and innovation among students.s

Creativity & Innovation

1. Rapi - surg:

A yearly academic fest conducted by the department of General surgery to hone the case presentation and deduction of differential diagnosis by the UG students. This program is typically conducted towards the end of the academic year.

1. Medi- rap

The Case presentation and arriving at a differential diagnosis for the Medicine and Allied departments are revised as a sprint in the Medi - rap program conducted by the Department of general medicine sharing the platform with all the Medicine and allied departments.

1. Academic Extravaganza:

The IQAC along with MEU and the student's council conducted an academic celebration in the month of October 2023 commemorating the Students day. The program aimed at kindling the creativity and innovations of the students. Under the guidance of the faculty of the departments the students prepared models, charts, posters, photos, memes, games, rangoli, short film etc.

2.5 - Evaluation Process and Reforms

2.5.1 - The Institution adheres to the academic calendar for the conduct of Continuous Internal Evaluation and ensures that it is robust and transparent

The institution adheres to the academic calendar for the conduct of continuous internal evaluation and ensures that it is robust and transparent

Trichy SRM Medical College Hospital and Research Centre holds the responsibility of effectively communicating its mission, vision, and strategy to key stakeholders. Each year, the institution appoints a Professor and Head as the Convenor for each phase of undergraduate (UG) training. The academic coordinator, in collaboration with the Vice Principals (VPs) and convenors, develops the academic calendar, which includes teaching schedules, internal assessment dates, holidays, commemorative events, UG and PG activities, sports, cultural events, and university examinations. The clinical posting schedule is issued separately.

Internal assessments incorporate traditional evaluation methods and, with the implementation of the Competency-Based Medical Education (CBME) framework, additional aspects such as small group discussions, self-directed learning, AETCOM modules, clinical exposure, assignments, and integrated sessions are also assessed. Student performance is systematically communicated to parents in phases.

For postgraduate (PG) students, assessments include work-based evaluations. Their performance is assessed through logbooks, in addition to internal theory and practical examinations. The PG appraisal process is meticulously documented using appraisal forms prepared by their guides or mentors, ensuring a comprehensive evaluation of their academic and clinical progress.

2.5.2 - Mechanism to deal with examination-related grievances is transparent, time-bound and efficient. Provide a description on Grievance redressal mechanism with reference to continuous internal evaluation, matters relating to University examination for submission of appeals, providing access to answer scripts, provision of re-totaling and provision for reassessment within 100 - 200 words

Mechanism to deal with examination related grievances is transparent, time bound and efficient. Provide a description on grievance redressal mechanism with reference to continuous internal evaluation matters relating to university examination for submission of appeals, providing access to answer scripts provision of retotaling and provision for reassessment in 200 words

Trichy SRM Medical College Hospital and Research Centre ensures a fair and transparent process for addressing exam-related grievances through a structured, time-bound approach.

Internal Assessment Grievances

Students can raise concerns about errors in marking during internal assessments by discussing them directly with the faculty. If unresolved, they may escalate the issue to the Head of the Department (HOD). Further dissatisfaction can be reported to the Vice Principals and Academic Coordinator, who review the grievance and take necessary action with the Dean's approval. Additionally, students can anonymously report cases of unfair practices to a committee comprising the Dean, Vice Principals, Academic Coordinator, and members of the Medical Education Unit. This committee conducts a thorough investigation to ensure academic integrity is upheld.

University Exam Re-Evaluation

University exam re-evaluation follows the guidelines set by Tamil Nadu Dr. MGR Medical University. Students can request photocopies of answer scripts only for failed subjects. The college, through the Dean's office, facilitates this process, ensuring students comply with the timelines and fee requirements prescribed by the university.

This dual-layered system for handling internal and university exam grievances reflects the institution's commitment to transparency, fairness, and maintaining academic standards.

2.5.3 - Reforms in the process and procedure in the conduct of evaluation/examination; including the automation of the examination system. Describe the reforms implemented in internal evaluation/ examinations with reference to the following within 100 - 200 words Examination procedures Processes integrating IT Continuous internal assessment system Competency-based assessment Workplace-based assessment Self assessment OSCE/OSPE

Reforms in the process and procedure in the conduct of evaluation/examination system. Describe the reforms implemented in internal evaluation/examination with reference to the following

University Theory and Practical Examination

First-year MBBS university exams commence with online registration three months prior, where students receive unique registration numbers. The exam schedule is published online, and internal marks statements are submitted 10-15 days before the exams. Students pay fees online, after which hall tickets are issued. Question papers are downloaded and printed, while attendance and seating arrangements are reported online daily during exams. Answer scripts are sent to the university post-exam, with 14 CCTV cameras monitoring and live-streaming the process. Evaluators, appointed by the university, conduct daily online assessments of theory

papers, practical exams, and viva voce. Results are published online for student access.

Continuous Internal Assessment

Undergraduates are assessed continuously as per Tamil Nadu Dr. MGR Medical University guidelines, with eight theory exams, five practical sessions, viva voce, academic records, and logbooks evaluated. Performance in integrated teaching, self-directed learning, assignments, AETCOM sessions, and small group discussions is also documented.

Postgraduate and Competency-Based Assessments

Postgraduate assessments focus on work-based evaluations, including theory, practicals, seminars, journal clubs, case discussions, logbooks, and 360-degree feedback. With Competency-Based Medical Education introduced in 2019-2020, certifiable competencies are documented in logbooks and assessed. Faculty, trained in OSPE/OSCE methods, develop stations critical for both internal and university practical exams.

2.6 - Student Performance and Learning Outcomes

2.6.1 - The Institution has stated the learning outcomes (generic and programme-specific) and graduate attributes as per the provisions of the Regulatory bodies and the University; which are communicated to the students and teachers through the website and other documents

The institution has stated the learning outcomes (generic and program specific) and graduate attributes as per the provisions of the regulatory bodies and the university which are communicated to the students and teachers through the website and other documents

Since the 2019 academic year, there have been significant reforms in the national medical curriculum, marking a new era in medical education across India. TSRMMCH now implements Competency-Based Medical Education (CBME) for its students, aligning with the latest national educational standards.

Affiliated with both the National Medical Council and Tamil Nadu Dr. MGR Medical University, the institution adheres to their prescribed guidelines. Each department, following the curriculum set by these regulatory bodies, develops program and course outcomes that are readily accessible on the institution's website for students. Newly appointed faculty members undergo an orientation conducted by the department heads to ensure alignment with institutional and regulatory standards.

The institution provides comprehensive access to essential academic resources. The academic calendar, teaching schedules, and modules issued by the National Medical Council are available online for reference. These include UG curriculum volumes, foundation courses, assessments, electives, pandemic response

modules, AETCOM, skills modules, logbooks, early clinical exposure, CMRI gazette, and information related to alignment and integration. All of these resources are made available to stakeholders, ensuring transparency and easy access to vital academic information, further enhancing the learning experience at TSRMMCH.

2.6.3 - The teaching learning and assessment processes of the Institution are aligned with the stated learning outcomes. Provide details on how teaching learning and assessment processes are mapped to achieve the generic and program-specific learning outcomes (for each program) within 100 – 200 words

The teaching learning and assessment processes of the Institution are

aligned with the stated learning outcomes

Trichy SRM Medical College hospital and research centre is affiliated with the Tamilnadu Dr MGR Medical University and accredited by the National Medical Council, derives its program and course outcomes from the specified syllabus and curriculum of these governing bodies. The Medical Education Unit, in collaboration with the IQAC, has organized faculty development programs at TSRMMCH & RC. These programs train faculty in various teaching-learning methods and aligned assessment techniques for all topics and competencies.

For undergraduates, teaching methods include lectures, small group sessions, bedside teaching, skill lab/simulation lab training,

Demonstrate, Observe, Assist, and Perform (DOAP), and peer teaching. Regular internal assessments, encompassing both theory and practical components as per university guidelines, evaluate program and course outcomes. Slow learners receive additional support through extra classes and assignments, while practical records and logbooks document hands-on training, assessed by department faculty.

Interns undergo evaluation based on work-based performance, with feedback recorded in their completion certificates for each department. Postgraduates engage in diverse teaching methods, including clinicopathological correlation meetings, mortality audits, physicians conferences, and more. Their quarterly appraisal covers various aspects such as journal-based learning, patient-based/laboratory or skill-based learning, self-directed learning, teaching, departmental and interdepartmental activities, external and outreach activities/CMEs, thesis/research work, logbook maintenance, and publications

2.6.4 - Presence and periodicity of parent-teachers meetings, remedial measures undertaken and outcome analysis. Describe structured mechanism for parent-teachers meetings, follow-up action taken and outcome analysis within 100 - 200 words

Presence and periodicity of parent-teachers' meetings, remedial measures undertaken and outcome analysis.

The parents' teachers meeting is conducted once every academic year around the middle of the course.

Procedure for PT Meeting

The internal assessment marks scored by their wards are intimated to the parents along with the details of the date, time and venue of the parents' teachers meeting to be conducted typically through mail. The parents of the slow learners should compulsorily attend the meeting. The other parents are encouraged to attend at their convenience. Parents who are unable to attend the parents' teachers meeting are advised to contact the faculty over phone or online meeting.

Proceedings of the PTM During the meeting, the parents are encouraged to meet the faculty and the professor and heads of all the departments of that academic year. The performance of the student is discussed, and the appropriate course of action is advised to the parents. Signatures are obtained both from the parents and the students.

Action taken

The problems discussed are noted down and discussed during the next departmental meeting and the remedial measures are done.

3.2 - Innovation Ecosystem

3.2.1 - The Institution has created an ecosystem for innovations including Incubation Centre and other initiatives for creation and transfer of knowledge. Describe the available Incubation Centre and evidence of its functioning (activities) within 100 - 200 words

Trichy SRM Medical College Hospital and Research Centre supports an encouraging environment for quality research and effective transfer of knowledge. All the research activities are monitored and assisted by the Institutional Research Board and Ethics committee.

The Institutional innovation cell (IIC) established in March 2022

in the name of “Trichy SRM Innovation Cell” (TSRM-IC), systematically fosters the culture of Innovation. This cell is functioning under the networkship of MHRD - MoE’s Innovation Cell (MIC), Ministry of Education, Government of India (AISHE Code: C - 45745 and MoE-IIC Reference ID: IC202216670). Quarterly meetings are conducted to review the completed activities and plan for forthcoming events. The activities like Doctors day celebrations - 2023 was conducted thereby two activities performed. Crowd models were done, 1. Caduceus by undergraduate medical students (MBBS) and 2. Stethoscope by Allied health science (AHS) students. Intra institutional competitions in novel health care facilities was conducted in commemoration of National Technology day thereby nine (9) prototypes were finalized and selected for final display, four displays were selected as best and certificate of appreciation and awards given. Patient safety program celebrations was conducted along with national medical commission, Government of India thereby engaging patients for patient safety - Rights and responsibilities and grievance redressal, mock drills - awareness training on emergency codes (red, blue, orange, pink and yellow), hand hygiene, poster and model presentations by undergraduate medical students, and best department competition and Project day 2024 where twenty teams participated and won the prizes.

3.4.4 - Institutional social responsibility activities in the neighbourhood community in terms of education, environmental issues like Swachh Bharath, health and hygiene awareness and socio-economic development issues carried out by the students and staff during the year. Describe the impact of extension activities in sensitizing students to social issues and holistic development within 100 - 200 words

Institutional Social Responsibilities (ISR)

Environmental awareness: YRC and Community services have participated in various activities under Swatch Bharat campaign and other health and environmental issues.

Health care: Community care as an integral part of education. Health cards are issued to the public to avail subsidized health care from the hospital.

Health camps and Blood donation camps: Health check-up camps including District blindness control society camps and blood donation camps were conducted and received letters and Awards of appreciation.

Participation in National health programs: Pulse Polio, Filariasis Control Program, Malaria Control Program etc.

Participation of student council: Tuberculosis Day, AIDS day, Breastfeeding week and days of national and international commemoration through street play and health education sessions.

Community participation: Educating medical students about their social responsibility; each student is allotted one family in the rural area.

Rehabilitation services: Interdisciplinary rehabilitation approach to address various disabling Neurological, Orthopedic and Pediatric conditions such as Stroke, Spinal cord injury, Traumatic brain injury, Musculoskeletal pain, Cerebral Palsy, Autism etc.

De-addiction facilities: Biological (medications), psychological (counseling) and social (motivation and follow ups) are provided.

Promotion of institution: Adoption of village, Family health survey, implementation of national health programmes and disaster management, social surveys, implementation of social justice and good citizenship through different committees.

Healthcare awareness through mass media: The faculty members of the institution taking part in healthcare awareness via mass media including radio, FM, television and social media channels and exhibits.

INFRASTRUCTURE AND LEARNING RESOURCES

4.1 - Physical Facilities

4.1.1 - The Institution has adequate facilities for teaching- learning. viz., classrooms, laboratories, computing equipment etc. Describe the adequacy of facilities for teaching-learning viz., classrooms, ICT-enabled classrooms, seminar halls, facilities for clinical learning, learning in the community, Teleconferences, AYUSH-related learning cum therapy centre, well-equipped laboratories, skills labs etc. as stipulated by the appropriate Regulatory bodies within 100 - 200words

TSRMMCH&RC has facilities for teaching - learning as specified by NMC & TNMGRMU

ICT enabled classrooms: TSRMMCH&RC has a total of 5 lecture halls (4 lecture halls with a seating capacity of 300 each and 1 lecture hall with 375 capacity) with internet connections with LAN, Wi-Fi connection and seminar halls and Demo halls for teaching in all the departments.

Examination halls: TSRMMCH&RC has two theory examination halls with a seating capacity of 325 with CCTV surveillance system installed as per the affiliating University requirements during the examination.

Library: Library has 15910 books, 115 (65 -Indian, 50-International) Journals, CD-ROM, digital library, remote access facility through Del Net, Proquest, BMJ e-learning resources with perineal access to more than 16025 books and Journals.

Laboratory: Practical exercises are done by the students in the laboratories equipped with all necessary learning resources as per the requirements of NMC.

Central Research Lab: Carries out research activities, encourages STS programmes funded by ICMR, faculty research programmes.

Museum: TSRMMCH&RC possess museums with learning materials like specimens, models, photographs, charts etc. for serving the needs of the students and faculty.

Skills lab: TSRMMCH&RC has a state-of-the-art skills lab. The skills lab has various mannequins, patient simulators and an array of skill trainers including CPR training.

4.3.5 - In-person and remote access usage of library and the learner sessions/library usage programmes organized for the teachers and students (data for the academic year) Describe in-person and remote access usage of library and the learner sessions/library usage programmes organized for the teachers and students data for the preceding academic year within 100 - 200 words

Faculty and Students of TSRMMCH&RC are allowed to use e-resources subscribed by Library Inside/Outside the campus. Benefits of remote access are available 24x7. Links to all the subscribed resources, open access resources, Library catalogue, new arrival of journals, ejournals, e-books list and Question papers are provided in the Institution website. The library users are given username and password to login to the website to access the e-resources and

library holdings. Library regularly organizes a number of online learning sessions for the faculty and students to help them understand and access the collections, facilities and services. The sessions include orientation to the fresher's and user awareness programs on various subscribed e-resources. During Orientation session the Librarian brief them how to use the Library,

Infrastructural facilities available, services provided, how to use the e-resources through remote access, guidelines to borrow books, rules and regulations of the library etc., Before purchasing an eresource we will call the publisher to give a demo on the product. Collect feedback from faculty and students, if they are satisfied then arrange for a trial access for one month and see how it works

and if users are satisfied then we arrange to place an order. Apart from central library each and every department has its departmental library, where subject specific books, integrated

topics books and journals are available for faculty and students.

4.5.2 - There are established systems and procedures for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports facilities, computers, classrooms etc. Describe policy details of systems and procedures for maintaining and utilizing physical and academic support facilities within a maximum of 100 -200 words.

TSRMMCH&RC owns, operates and maintains a very extensive infrastructure to cater the needs of the students in learning, teaching and research. The Institution has a SOP to suffice the need of the hour in accordance with the institutional policies to improve and continuously monitor the quality highlighting the management framework and allocation of responsibilities to ensure an effective implementation of maintenance of available infrastructure.

The physical facilities are maintained by the Institution's Engineering Section, comprising Civil Engineers and Electrical Engineers. The services of Plumbers, Electricians, and Computer Analysts are available round the clock in the Campus. Electrical Engineers are responsible for the uninterrupted power supply and maintenance of equipment like generator sets, general lighting, power distribution system, solar panels etc. Maintenance of Water Plumbing Plants, Sewage and Drainage is undertaken by support staff.

In the campus, the Electrical and the Civil complaints are handled by the Maintenance Cell which is under the supervision of the Manager and Maintenance Staff. The Project Manager with a team of members shall monitor the maintenance and Cleanliness of the buildings, classrooms, labs, furniture, campus ground, sports facilities, staff lounge, students amenity areas, cafeteria and hostel buildings. Housekeeping services shall be outsourced on an annual contract basis and be made available during day time on all days. Transport facilities are monitored and maintained by the Transport manager and the support staff. Annual maintenance of all vehicles is done promptly at the end of each academic year.

5.3.2 - Presence of a Student Council, its activities related to student welfare and student representation in academic & administrative bodies/ committees of the Institution. Describe the Student Council, its activities related to student welfare and student representation in academic & administrative bodies /committees of the Institution within 100 - 200words

The Trichy SRM Medical College Hospital and Research Centre has an established Student council. Members of the student council are nominated by the batch of students. The council comprises representatives from each batch. The student council is supervised and guided by the student council committee. Responsibilities and obligations are discussed with the nominated members regularly.

The student council member positions include President, Vice President, Treasurer, Secretary, Institution Representative and Members from each batch of students. The college generates platform for active participation of students in various academic and administrative bodies.

Students are included as members of various committees like Curriculum Committee, bioethics committee, Sports, Music, Dance and Photography in the institution. It empowers the students to gain leadership skills, creating exponential involvement of students in college programs. Programmes are conducted in the

college to improve life skills, services, co-curricular activities. The college has keen interest in providing opportunities to express their talent. Institution encourages participation of all students in cultural and sports activities. Students are encouraged to have a friendly environment, increase networking and communication among students. Student council members with input from staff and students, plan and implement new programmes in the campus like preparations for entrance exams, skill enhancement, etc.

Events are organized to understand the social responsibilities like cancer prevention, no tobacco day, world aids day. Students are encouraged in organizing and conducting camps for the patients.

5.4 - Alumni Engagement

5.4.1 - The Alumni Association is registered and holds regular meetings to plan its involvement and developmental activities with the support of the college during the year. Describe the contributions of the Alumni Association to the Institution during the year within 100 – 200 words

This Institution focuses upon the contribution of enthusiastic and willing Alumni. There is a registered alumni association with

active participation from Alumni. The Alumni are a strong support to our Institution and our brand ambassadors. The mission of the Association is to bring strong bonds between alumni, students and the Institute, to keep alumni informed, create a network enabling them to remain engaged with their alma mater and help shape its future through the Associations programmes and services. Alumni meetings have been encouraged and supported by institutions. Contribution to the institution has been done by alumni association in financial as well as nonfinancial. Alumni Association is working for mutually beneficial interaction between the Alumni and the present students of the college and between the Alumni themselves Few alumni are employed as Teaching faculty in our college; they play an important role in academic and institutional development. Activities of the alumni association: 1. To create an enabling environment in the organization to bring all alumni together and facilitate networking for academic and professional development. 2. To contribute to academic excellence by sharing their knowledge and experience with their junior colleagues. 3. To organize various events in the institution by educational networking

GOVERNANCE, LEADERSHIP AND MANAGEMENT

6.1 - Institutional Vision and Leadership

6.1.1 - The Institution has clearly stated Vision and Mission which are reflected in its academic and administrative governance. Describe the Vision and Mission of the Institution, nature of governance, perspective plans and stakeholders' participation in the decision-making bodies highlighting the activities leading to Institutional excellence.

Vision: To create a competent and socially responsible health care system by strengthening and sustaining medical knowledge, altruistic service and progressive research. To create highly competitive and skilled medical professional.

Mission: To impart best medical education to the students through state of the art teaching, training methodology, and creating opportunity for self-learning dovetailed with soft skills and ethical medical practice. To provide an affordable and quality health care delivery by means of updated technology of international standards and to innovate by providing collaborative research environment.

Nature of Governance: The institution has a well-defined Organization structure. Nature of governance is decentralized and participative management of stakeholders are involved in its effective functioning. The institution has constituted the College Council which in turn has formed the IQAC. Dean is the chairman of IQAC and it has an IQAC Coordinator, senior faculty as members,

representatives from undergraduate, postgraduate students and alumni. Various committees with representations from staff, students have been formed and these committees meet regularly to monitor progress. The suggestions given by the college council, Academic, Administrative, Human Resource and Examination committees are considered and implemented under the leadership and guidance of the Dean.

6.1.2 - Effective leadership is reflected in various Institutional practices such as decentralization and participative management. Describe the organogram of the college management structure and its functioning system highlighting decentralized and participatory management and its outcomes in the Institutional governance within 100 - 200 words

Nature of governance is decentralized and participative management of stakeholders are involved in its effective functioning. The institution has a well-defined Organization structure.

The institution has constituted the College Council which in turn has formed the IQAC. Dean is the chairman of IQAC and it has an IQAC Coordinator, senior faculty as members, representatives from undergraduate, postgraduate students and alumni.

Various committees with representations from staff and students have been formed and these committees meet regularly to monitor progress. All the department coordinators along with academic coordinator are actively involved in identifying the students who are struggling in their academic activities. Academic coordinator and examination cell works in association with student mentorship activities, Parents teacher meeting and student welfare.

The list of students who need special attention will be collected

from all the departments based on their poor performance in Internals, inadequate clinical skills, poor communication skills, and difficulty in understanding the subject.

Students who are part of committees provide valuable suggestions and resolve many issues and also give their feedback on different components of the system. Faculties are an active component of participative governance and provide their valuable experience, inputs and feedback.

6.3 - Faculty Empowerment Strategies

6.3.1 - The institution has effective welfare measures for teaching and non-teaching staff and avenues for their career development/ progression

The management provides Contributory Provident Fund and Group insurance for faculty. Management provides financial support to faculty for presenting scientific papers at National and International conferences.

Special leave to attend seminars, conferences and CME programs has been provided to staff. Staffs are encouraged to join PhD programs. Faculties are provided with adequate and suitable office accommodation at their workplaces. Attenders have been appointed to attend to their needs. HOD's are provided with individual computers in their offices to carry out and monitor day to day activities.

There is a separate reading room for staff in the main library. Staffs are provided a separate section in the college canteen. Quarters facilities are made available for Faculty and staffs. Leave facilities for staffs includes CL, EL, AL, RH, OD and Maternity Leave. Free Medical treatment and investigations including blood tests, x- rays etc. are given to staff and their dependents.

A Crèche facility for Children of Staff is provided. Various benefits for non-teaching staff include Free Medical treatment and investigations. Contributory Provident Fund for non-teaching staff, leave facilities includes CL, EL, RH and Maternity Leave. Gym and indoor sports facility available. Uniforms for the supportive staff.

6.3.5 - Institution has Performance Appraisal System for teaching and non- teaching staff. Describe the functioning of the Performance Appraisal System for teaching and nonteaching staff within 100 - 200 words

The self appraisal report of the teaching staff is duly verified by the Heads of the respective Teaching Departments and thereafter by the Dean and then submitted to the College council. The SAR of HODs is done by the Dean. The Dean prepares the HODs ACR.

Performance Appraisal System (PAS) for Non-teaching staff: The performance appraisal of the non-teaching staff is equally important for efficient running of an institution. The Institution has PAS for the Para medical staff, Technical staff and Administrative staff. This system has been formulated based on the Job and Skill set required for the job and consists of both technical and behavioural aspects. ATR for each staff will be prepared annually and reviewed by office superintendent. The overall performance appraisal helps the administration to compensate, promote the Staff.

The PA also helps the staff to know their strengths and weaknesses and potential for future development. The Institution duly recognizes the efforts of the staff members for any achievement or innovative practice. Such innovations are evaluated and are given due acknowledgements.

6.4 - Financial Management and Resource Mobilization

6.4.1 - Institutional strategies for mobilisation of funds and the optimal utilisation of resources

Collection of Tuition Fees from the students; Income generated out of treatment given to the patients. Apart from this, funds are needed to pay the salaries of administrative, academic and non-academic staff. A robust financial allocation for TSRMMCH&RC administration would not only enhance goals attainment but its sustainability.

Plan and policy implementation are responsive to funds availability. Funds are needed for the acquisition of fixed and current assets and to settle current liabilities and expenditure incurred in the course of administration. Financial management covers such areas as the procurement of funds, their allocation, monitoring their use in the interest of accountability and producing financial reports for the relevant stakeholders. Effective financial management ensures that: All financial transactions are recorded accurately, Adequate controls are in place to ensure that expenditures do not exceed income, and Only authorized expenditures are incurred.

Financial management is therefore, an integral part of the responsibility. The Chief Financial Officer and role of Institution Administrators in Financial Management: The ultimate accountability for the effective management of Institution finances lies with the office of the CFO.

6.4.2 - Institution conducts internal and external financial audits regularly. Enumerate the various internal and external financial audits carried out during the year with the mechanism for settling any audit objections within 100 -200 words

TSRMMCH&RC has an internal audit mechanism, an ongoing continuous process in addition to its external audits. Qualified internal Auditors from external resources are permanently appointed. A team of staff under them do a thorough check and verifications of all vouchers, supporting documents, records and books, e-statements of the transactions that are carried out in each financial year including budget estimations, utilizations, cash transactions, bank reconciliation statements, test cheque and verification of the events happened in the area of financial managements.

Mechanism of Internal audit and settlement of objections implemented in the institutions is as follows: Examining the statutory payments to different bodies like EPF, PT, TDS, Income Tax Examining the Bank pass book & reconciliation statement. Examining Grants, scholarships, deposits, payments - relating to vendor payment of TSRMMCH&RC done by Head office & controlled by Internal Audit, salary and remuneration payment for all staff, Doctors & consultants taken care by Head office and each and every month monitored by Internal Audit. Interdepartmental stock checking reports. Internal Audit is carried out regularly. The institution is maintaining accounting standards of accrual basis accounting concepts, which enables efficiency of control and monitoring of budget allocated funds and utilization not overridden within the limit.

6.5 - Internal Quality Assurance System

6.5.1 - Institution has a streamlined Internal Quality Assurance Mechanism. Describe the Internal Quality Assurance Mechanism in the Institution and the activities of IQAC within 100 - 200 words

TSRMMCH&RC has a well-defined Organization structure. The institution has constituted the College Council which in turn has formed the Internal Quality Assurance Cell. Dean is the chairman

of IQAC, supported by Coordinator IQAC, HODs, Senior Facilities and administration, HR and Examination In charge. Various committees with representations from staff students have been formed. SWOC analysis of the entire quality system are incorporated by the Internal Quality Assurance Cell. The following are the quality strategies and processes deployed by the institution. Nature of governance is decentralized and participative management of stakeholders are involved in its effective functioning of Internal Quality Assurance Cell. IQAC promotes need-based training/workshops for faculty, administrative and supportive staff.

Staffs are encouraged to attend Continuing Medical Education programmes, Hands on courses, workshops, Conferences conducted by the university and other organizations at National and International level. The Internal Quality Assurance Cell, on a regular basis, makes a thorough environmental assessment of the campus and implements healthy ecological practices in water and energy conservation and waste management. Entire college campus is made as No Smoking Zone. Encouragement for Green and clean environment is being done.

7.1.2 - Measures initiated by the Institution for the promotion of gender equity during the year. Describe gender equity & sensitization in curricular and co-curricular activities, facilities for

women on campus within 100 - 200 words

Gender equity is the process of allocating resources, programs and decision-making fairly to both male and female gender without any discrimination. Various curricular and co-curricular activities are held on campus to ensure gender equity and raise awareness on gender sensitivity. The staff constantly interact with all the students and enquire about their wellbeing. They advise them on the subject of acceptable attire, personal safety, precautions to be taken on social media platforms, etc. The Management on its part has ensured that there is parity of salary for both genders. Women are provided equal opportunities and cooperation has always been extended to them. The Student Mentorship Committee ensures that the mentor handles his/her allotted mentees. This ensures that sensitive issues that arise especially pertaining to girls are identified in the initial stage itself and addressed satisfactorily through the appropriate authority.

The Vishaka Committee constituted under the aegis of IQAC has senior female faculty members along with student members who ensure that women's rights are protected. The purpose of this committee is to provide protection against sexual harassment of women at workplace and the prevention and redressal of complaints of sexual harassment and matters related to it.

7.1.4 - Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste (within 100 - 200 words) Solid waste management Liquid waste management Biomedical waste management E-waste management Waste recycling system Hazardous chemicals and radioactive waste management

Biodegradable solid wastes are processed for biogas production which is used for cooking practices. Non degradable general waste generated on the campus is being collected, segregated and disposed of with the Municipal Corporation.

Liquid waste is treated by aerobic sewage treatment plants and the treated water is used for gardening and toilet flushing which will meet the inland water standards.

Biomedical waste is segregated in color coded and barcode labeled bags/ containers at source of generation, which is transported by Intra-mural transportation to the central storage area, where it is temporarily stored. All health care workers involved in transport were given proper inhouse training along with provision of PPE like masks, gloves, and aprons.

E Waste generated like non working computers, monitors and printers are stored in specific designated areas which are taken care of by sister institute SRM Institute of science & technology, as per the guidelines of Pollution Control Board.

Hazardous waste generated is separated as flammable & non flammable as per MSDS and proper disposal is ensured. No Radioactive waste is generated in the institute.

7.1.8 - Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities (within 200 words).

The institution encourages students to celebrate Pongal, Christmas, Tamil New year, Telugu New year and Onam every year. We

identify students with language issues (Tamil and English) during the foundation course itself, which enables the faculty to provide assistance for these students and schedule communication classes for those students.

The institution is providing opportunity towards better health care utilization for people from middle and low socio-economic class by providing free consultation in all clinical departments of the hospital and free nutritious food to all in-patients. Theory sessions in the department of Community Medicine and field visits to rural and urban community field practice areas of our institution, where house to house data collection is done on various health related topics by the students. Teaching sessions on social determinants are included as a longitudinal program over all phases of undergraduate teaching.

Working women staff can use the day care center for their children during working hour which is located within the campus. Additional low-cost affordable breakfast and lunch are provided by the college canteen for the benefit of attenders of patients and also college staff.

7.1.10 - The Institution celebrates/ organizes national and international commemorative days, events and festivals. Describe the efforts of the Institution in celebrating /organizing National and International commemorative days and events and festivals within 100 - 200 words

Festival celebrations offer a sense of belonging for religious, social or geographical groups contributing to group cohesiveness. They serve to help other members of the community better understand their culture and tradition. Various festivals such as Pongal, Republic day, Independence Day, Vinayagar Chaturthi, Dussehra, Onam, Christmas are celebrated with great pomp and gaiety in TRICHY SRM. As with festivals, important days of national and international importance such as Teacher's Day, Doctor's Day, World Health Day, World AIDS Day, World No Tobacco Day, Women's Day have their own significance which are celebrated to commemorate their importance. Various programs to raise awareness and sensitization according to theme among general public and provide necessary health care services. Apart from that Trichy SRMMCH&RC takes an opportunity by inviting distinguished speakers to address the staff and students and enhance the knowledge and recent updates on these days.

7.2 - Best Practices

7.2.1 - Describe two Institutional Best Practices as per the NAAC format provided in the Manual (Respond within 100 - 200 words)

1. Title : Institutional maternity benefit scheme

Objective :

- 1. To encourage rural pregnant women to attend ante-natal clinics with a professional support at all phases of pregnancy**
- 2. To ensure hospital delivery and adequate nutrition for mother and baby**
- 3. To promote safe motherhood and reduce maternal and fetal morbidity and mortality**

2. Title : Geriatric Health Care Services Program "SIXTY Plus Project": Community and Institutional Based

Objective :

To impart knowledge to trainee interns about basics of Geriatric care.

To make them understand the importance of geriatric care in Clinical practice in the context of physical, surgical and Psychiatric conditions.

To impart knowledge about key problems faced in geriatric age group and how it can be handled successfully.

3. Title :

? 499 - Special Health Checkup Package (24th July 2023 - 04th August 2023)

? 599 - World Heart Day Package (25th September 2023 - 07th October 2023)

Objectives :

To provide affordable and comprehensive Health Checkup for all. This Comprehensive Health Checkup aims at healthcare at a very

affordable cost.

Title of the Practice: Distribution of Prosthesis & calipers to the needy

1. Objectives:

To provide Prosthesis & calipers to the needy and deserving differently-abled persons for their easy mobility.

7.3 - Institutional Distinctiveness

7.3.1 - Portray the performance of the Institution during the year in one area distinctive to its priority and thrust within 100 - 200 words

As a part of Unnat Bharat Abhiyaan, Trichy SRM Medical college hospital and research Centre , Trichy has adopted 5 villages namely Thirumanamedu (West) ,Thirumanamedu (East), Thirumangalam, Kovathakudi and Ootathur. As a first step towards our association with these villages, the Department of Community Medicine has undertaken a household survey in these villages using the proforma provided by Unnat Bharat Abhiyaan.

The survey was conducted on 4 days in 5 villages with help of the data collection team comprising of 37 trained students of Phase 3 part 1 MBBS and 3 Medical social workers under the guidance of faculty Dr Deodatt S, Dr Palanivel Rajan, Dr Suguna A, Dr Divya R, Dr Jeffin and Dr Kalaipriya. The Data collection took 444-man hours of work excluding the time for training.172 variables from different Indicators of socio-demographics, health ,agriculture and accessibility to public utilities were collected ,studied and report generated.

8.1.2 - Students are exposed to quality of care and patient safety procedures including infection prevention and control practices as practiced by the teaching hospital in didactic and practical sessions during their clinical postings.

Quality of care and patient safety are given utmost importance in our institution, which is ensured by way of total quality management and continuous quality improvement practices. Since our hospital is accredited by national bodies like NABH and NABL, our medical students are sufficiently exposed to quality of care,

patient safety and infection control practices during their hospital visits in foundation course and routine clinical postings. Elaborate theoretical and practical teaching sessions on infection control practices are conducted by the department of Microbiology for both undergraduate and postgraduate students. Topics covered in didactic sessions are sterilization, disinfection, biomedical waste management, hospital acquired infections, antibiotic stewardship. Practical demonstrations on infection control practices, Personnel Protective Equipments (PPE), hand hygiene techniques help the students incorporate these infection control practices effectively in their daily clinical practice. The World Patient Safety days are celebrated by the Department of General Surgery with sessions on the importance of patient safety, the role of nursing care and the precautions to be followed by the healthcare workers. A role play is also organized to provide simulated training for students and staff nurses.

8.1.4 - The Institution has introduced objective methods to measure and certify attainment of specific clinical competencies by MBBS students/interns as stated in the undergraduate curriculum by the Medical Council of India

Course specific certifiable clinical competencies for MBBS students and interns are enlisted by NMC in CBME curriculum, skills module document and GMER 2019. The institution has established a fully-equipped skills lab and has trained the faculty in operations of skills lab for this purpose.

Training and certification of clinical competencies are primarily accomplished through practical sessions (demonstrations, small group discussions, DOAP, OSPE), clinical sessions (demonstrations, small group discussions, DOAP, OSCE), and special training sessions on mannequins and models present in the institutional skills lab. Certification of competencies are documented in students log records and duly signed by the assessing faculty and heads of the departments.

The Department of physiology assess students to record blood pressure, pulse, clinical examination of respiratory and nervous system in the laboratory and assess them through OSCE. The pharmacology department assess the students on Prescription writing, prescription audit, critical evaluation of drug promotional literature and list of drugs by problem based learning and OSPE. The final phase 4 students are taught various core clinical competencies based on their respective departments and are taught and assessed in skills lab.

8.1.5 - Instructional sessions for students introduced by the College on the Medical, Legal, Ethical and Social Issues involved in organ transplantation. Give a description of the instructional sessions for students introduced by the College on the Medical, Legal, Ethical and Social Issues involved in organ transplantation.

Medical, legal, ethical and social issues involved in organ transplant are dealt in various didactic and practical sessions to the undergraduates. Didactic sessions by the department of Forensic Medicine and Toxicology deal with legal aspects enacted by the Organ Transplantation Act.

The objectives of teaching session conducted by the department of General Medicine are to introduce the concepts of renal transplantation, its indications, pre-transplant evaluation, selection criteria for donor and recipient, post-transplant care and management of the recipient, complications like graft rejection. Medical students and interns get to interact with some of the renal transplant recipients and donors during their clinical postings.

Ethical principles and importance of donor's informed consent are instilled in the minds of future doctors in order to prevent the commercialisation of organ donation. Social issues and promoting cadaveric organ donation are also discussed, with a vision to change the future scenario of national organ transplantation by increasing organ availability to meet the rising demands.

8.1.6 - Students are exposed to the organization and operational features of the Immunization Clinic functioning in the hospital as per WHO guidelines for childhood immunization. Describe the functioning of the Immunization Clinic in the Institution as per the quality specifications stated in WHO guidelines and the steps taken to provide students with information on its relevance and operational features within 100-200 words.

The immunisation clinic located at the Pediatric OPD and is well equipped following WHO standard guidelines. All vaccines recommended by Government of India (GOI) and Indian Academy of Pediatrics (IAP) are administered to children under supervision of a pediatrician.

Immunisation schedule and the cost of optional vaccines are displayed at the entrance. The out patient cards with printed immunisation schedule are available for the mothers / primary care givers to timely administer the vaccines. The Ice Lined refrigerator (ILR) operates on 220 volts A.C. current, maintaining a cabinet temperature at 2 to 8 degrees, prescribed by WHO.

The cold chain is maintained strictly and vaccines are protected from temperature extremes.

Practical classes are taken when vaccines are administered by demonstration.

During the Phase 1,2 and 3, Department of Community Medicine also teaches students about different types of immunity and vaccines, national immunisation schedule, cold chain equipment's, Open vial policy, how to record and AEFI and about immunisation error related reactions and anxiety related reactions. During their internship, compulsory rotatory medical interns(CRMI) are allowed

to administer vaccination under the supervision of a paediatrician in the paediatric outpatient department

8.1.7 - The College has adopted methods to define and implement Medical graduate attributes with a system of evaluation of attainment of the same. Describe the Medical graduate attributes developed by the College and the steps taken to implement and assess the attainment of the same (100-200 words).

The undergraduate medical education programme of our institution is designed with a goal to create Indian Medical Graduates (IMG) possessing requisite knowledge, skills, attitudes, values and responsiveness, so that they may function as a physician of first contact of the community while being globally relevant.

Students are made to recognise “health for all” as a national goal and health right of all citizens, and to learn every aspect of National policies on health and devote to its practical implementation.

Academic programs are designed to achieve competence in practice of holistic medicine, encompassing promotive, preventive, curative and rehabilitative aspects of common diseases.

Student-doctor method of learning is introduced to develop scientific temper, acquire educational experience for proficiency in profession. Bioethics along with etiquette is instilled in the

minds of students to become exemplary citizen by observance of medical ethics and fulfilling social and professional obligations, so as to respond to national aspirations.

As a whole, the students are made to evolve in their roles as clinician, leader and member of healthcare team, effective communicator, life long learner and a true professional.

8.1.8 - Activities of the Medical Education Unit of the College in conducting a range of Faculty Development Programmes in emerging trends in Medical Educational Technology. Describe the Faculty Development Programmes organized by the MEU of the College in the areas of emerging trends in Medical Educational Technology during the year.

Medical Education Unit (MEU) of our institution regularly conducts faculty development programmes in areas of emerging trends in Medical Education Technology (MET) round the year. These programmes are aimed at enhancing the skills and equipping the teaching faculty with newer technologies available in the field of medical education, thereby continually improving the quality of the teaching institution as well that of the medical graduates passing out. The resource persons for these programmes include the MEU members, other in-house faculty, as well as external eminent speakers. In the current year, MEU conducted faculty trainings in current developments in education technology which was much needed during the pandemic for conducting online/remote classes for students. Teachers were also trained in the smart e-board installed in the lecture halls. Newly joined faculty and Medical Postgraduates are trained in basic teaching skills during Revised Basic Course and AETCOM workshop as mandated by NMC. All the teachers are well versed in implementing the undergraduate CBME curriculum as they are trained by Curriculum Implementation Support Program.

8.1.11 - Steps/procedures adopted by the College to expose students to contemporary medico-legal practices and third-party payers/insurance mechanisms, indemnity insurance protection etc. relevant to the clinician/provider as well as the patient/recipient.

The medical undergraduate students are taught about various contemporary medico-legal practices as part of their curriculum by the Department of Forensic Medicine and Toxicology. Proceedings in Court of law, summons and responsibilities of witnesses are demonstrated via interesting case scenarios, role-play. Legal procedure of conducting autopsy is demonstrated through live autopsy session arranged at the district Government Medical College Hospital. Students are educated about duties of Registered Medical Practitioner in medico-legal cases, corresponding Indian Penal Code sections and medico-legal certifications like Age estimation certificate, Death certificate, Wound certificate, Drunkenness Certificate, Sexual Offence examination of victim and accused, by attending Casualty Department postings. Current topics like euthanasia and medical laws like Surrogacy act, PC-PNDT act, MTP act are part of lecture classes. Students are made aware of Consumer Protection Act dealing with medical indemnity insurance, civil litigations and compensations. Indemnity insurance safeguard doctors against legal claims by patients in case of negligence suits. Doctors in our hospital use Professional Protection Scheme from Indian Medical Association by paying annual premium at any branch
